
Photar introduces the ultimate trip – 255 levels deep.

Step into Megadon from Photar Industries. It's an action filled journey the likes of which never existed before

Players master 255 different levels of play while hunting Cosmic Infidels and being pursued by Terrible Ergs

Megadon stays exciting because it fuses a maze game and space game together. Players pilot an ion powered Megedon Fighter through space and around obstacles

Megadon includes features like these: Riveting graphics, gripping sounds • Player has the option to continue playing at the current level and score or to reset the game • Easy service, four locked entries for access • Unique built in test functions, complete ribbon cabling • Interchangeability • Game speed adjusteble by dip switch • Contest kits encourage play at each location

Contact Photar for the distributor nearest you. See Megadon. Play Megedon. Then you too will understand why MEGADON WILL MAKE YOU MEGABUCKS.

Also available with matching optional overhead monitor
